

6 Weeks + Before Planned Date

Here are a few things you would need to consider for your street party

- Speak to your neighbours to share ideas and see who is on onboard
- Do you need liability insurance depending on what is going to take place
- Talk to your local council to find out about road closure procedures
- Think about licensing for any music broadcast or alcohol sales.

If road closures aren't an option you can have a 'street meet' at the end of a cul de sac for example.

If you are planning to sell alcohol then a reputable bar service provider will arrange a Temporary Event Notice.

- Plan the first meeting with residents and share responsibilities

3 Weeks + Before Planned Date

- Make sure you have a wet weather plan
- Issue the Invitations
- Put up road closure signs
- Plan the layout, keep the kids activity area away from tables and chairs and any electrical equipment
